Collection Altagamma Fibers

Story behind the collection

ALTAGAMMA FIBERS is a wallcoverings collection in vinyl on a non-woven fabric support that interprets the oriental theme of natural textures worked in overlapping and mixing, treated in collage, tapestry or sewn together, in search of new textures to personalize the walls of contemporary environments. KITA: it is a pattern that uses a single texture played in collage but with a rigorous geometric pattern. It guarantees volume to the wall and gives depth and elegance to the environment.
