

KAORI

Collection JV 452 MISAKI

Description

A small precious chest. This is how the JV452 Misaki collection presents itself: a refined and precious selection of wall coverings strongly tied to nature. Silks, straws, and fibers in woven and colored textures with natural techniques, where elegance and sophistication blend to express the strong ability to dress walls, transforming spaces into unique places. Misaki, like the name given to spirits in Japanese culture, is a collection where light shades and natural materials quietly rest on the walls, leaving the sense of touch to feel their warmth and texture.
