Collection JV 106 AMAZZONIA

Description

JV 106 Amazonia is a collection of wall coverings inspired by a silent journey into the heart of the rainforest. It captures the primal beauty of nature, aiming to bring the wild, enveloping, and elegant essence of the tropical jungle into contemporary spaces. A fluid and refined material base, capable of giving depth and movement to the space. The light texture subtly accompanies the surfaces, creating a sense of visual and harmonic continuity. Igapó is designed for environments seeking balance between naturalness and sophistication, serving as an ideal backdrop to enhance any type of combination.
