Collection Marimekko 07

Story behind the collection

Marimekko returns with iconic designs interpreted by new production techniques for the new collection Wallcoverings Marimekko 07 by Jannelli&Volpi. Its unmistakable mark for more than seventy years expressed in fashion and design, in fact, makes its patterns unique, both historical and newly created, and they constitute, for modernity and innovation, a great source of inspiration for the interior world as well. Created by Anna Danielsson, the Bottna pattern with its water lily leaves represents the spirit of Art Nouveau and reflects the designer's concern for the environment. Of particular note is the silver version that renews this evergreen that never wanes.
