Collection Marimekko 07

Story behind the collection

Marimekko returns with iconic designs interpreted by new production techniques for the new collection Wallcoverings Marimekko 07 by Jannelli&Volpi. Its unmistakable mark for more than seventy years expressed in fashion and design, in fact, makes its patterns unique, both historical and newly created, and they constitute, for modernity and innovation, a great source of inspiration for the interior world as well. Antti Kekki's Laidun (pasture) print captures horses grazing on a summer evening. The pattern was created on the floor of the designer's studio using cut-out pieces of paper-the animals were created piece by piece by combining different shapes. The graphic, mosaic-like vegetation adds a sense of space to the motif, contrasting with the round shapes of the animals.
