Collection Marimekko 07

Story behind the collection

Marimekko returns with iconic designs interpreted by new production techniques for the new collection Wallcoverings Marimekko 07 by Jannelli&Volpi. Its unmistakable mark for more than seventy years expressed in fashion and design, in fact, makes its patterns unique, both historical and newly created, and they constitute, for modernity and innovation, a great source of inspiration for the interior world as well. Prints designed by Vuokko Eskolin-Nurmesniemi, who worked at Marimekko from 1953 to 1960, represent the center of Marimekko's timeless design. The rhythmic square Noppa (dice) design is one of his many patterns that have maintained their popularity decade after decade.
