

Seppel

Collection Marimekko 07

Story behind the collection

Marimekko returns with iconic designs interpreted by new production techniques for the new collection Wallcoverings Marimekko 07 by Jannelli&Volpi. Its unmistakable mark for more than seventy years expressed in fashion and design, in fact, makes its patterns unique, both historical and newly created, and they constitute, for modernity and innovation, a great source of inspiration for the interior world as well. Seppel (garland), designed by Antti Kekki, was inspired by Maija Isola's iconic Unikko, particularly the flower stems, which now bend into soft arches overlapping one another, reminiscent of tree rings. The festive Seppel print was created by combining curved shapes, cut from paper in Antti's signature style. The flower center is also used as a precious gem in the wreath of Unikko's 60th anniversary.
