

Unikko 60th Anniversary

Collection Marimekko 07

Story behind the collection

Marimekko returns with iconic designs interpreted by new production techniques for the new collection Wallcoverings Marimekko 07 by Jannelli&Volpi. Its unmistakable mark for more than seventy years expressed in fashion and design, in fact, makes its patterns unique, both historical and newly created, and they constitute, for modernity and innovation, a great source of inspiration for the interior world as well. Marimekko's famous poppy Unikko was designed in 1964 by Maija Isola. Maija Isola designed Unikko so that it would be an abstraction of a flower rather than a photorealistic rendering. Today Unikko is a powerful emblem of joy and creativity, perfectly integrated into Marimekko's design identity. Maija has proven that there is always room for creativity that spreads joy. Nothing better than for Unikko wallcovering that we find dipped in gold paste or outline always in gold to mark its contour, in small or large format always in different and new colors.
